## Reimagine Parking for a Frictionless Future

Imagine a world where finding parking is effortless. No more circling endlessly, no more fumbling for cash or tickets. WASL is building a seamless parking ecosystem that empowers drivers and parking owners alike.

# The Parking Struggle

We've all been there. The frustration of endlessly circling for a spot, the stress of dealing with slow payment lines, the feeling of helplessness when faced with a malfunctioning machine or a ticket machine that only accepts cash.

# WASL - The Competitive Edge

Traditional parking solutions often rely on outdated methods, leading to frustration for everyone involved.

# WASL - The Competitive Edge

**Comprehensive Approach with AI:** Helps drivers find available parking spaces quickly. AI can also estimate the number of vehicles & average time spent by a car.
